

In accordance with the Scandinavian Health Authority guidelines and in line with many global policies, all countries of Scandinavia are in a state of closure for an undetermined period. We would like to assure our clients that Møbeltransport Danmark Fine Art will continue to operate throughout this uncertain time. Our facilities in Denmark and Sweden will remain open with the majority of staff working from home where possible.

Naturally, we are seeing a reduced business activity and will continue to monitor the situation. Staff members are contactable by email or phones with phones diverted where necessary. We continue to operate a fine art transport service as required, honouring all our current commitments where permitted.

All staff members have been fully briefed as to the situation and are taking all precautions necessary to halt the spread of the coronavirus (COVID-19).

Should you require any assistance or further information on the matter, please contact either of the below:
